## Trading Schedule Adjustment for the Juneteenth National Independence Day Holiday

Dear Valued Clients,

In observance of the Juneteenth National Independence Day holiday in the United States, please be advised that the New York Gold Market will be closed on Friday, June 19, 2026. Consequently, the trading hours for our Spot Gold and Spot Silver platforms will be adjusted as follows (all times indicated in Beijing Time):

**Market closes from 00:45 to 04:49 a.m. June 20, 2026 (Saturday)**

**Market reopens at 06:00 a.m. on June 22, 2026 (Monday)**

### Important Reminders:

1. Please be advised that during public holidays and weekend market closures, market liquidity may experience thinning, and volatility may be materially affected. This environment can potentially result in heightened price fluctuations and execution gaps upon market reopening.
2. To safeguard your positions, clients are **strictly required to maintain an account margin level above 200% by ensuring sufficient equity is available prior to 00:15 a.m. on Saturday, June 20.** In the event that an account's margin falls below this threshold, the system will automatically trigger a forced liquidation. Accordingly, we strongly recommend that you manage your exposure prudently, as any failure to maintain the required margin will result in immediate automated liquidation to mitigate market risk.
3. All working orders, including Stop-Loss and Take-Profit pending instructions, shall remain fully effective throughout the market closure period. These orders will remain active until they are either manually canceled by the client or reach their designated expiration.
