

Important Notice on the Adjustment to Spot Gold/Silver Market Opening Time

Dear Valued Clients:

To further safeguard your trading security and reduce potential risks at market open, we have decided to optimize the opening time for spot gold and silver trading after thorough consideration. The details are as follows:

Effective from July 6, 2026 (Monday), the opening time for spot gold/silver on each trading day (Monday to Friday) will be postponed by 1 minute from the original Beijing Time 06:00 (Summer Time) / 07:00 (Winter Time) to 06:01 / 07:01. Daily settlement and market close times will remain unchanged.

We have observed that during the first minute after market opening, liquidity has not yet fully developed. This results in wider bid-ask spreads and more volatile price movements, which may lead to temporary price discrepancies. To mitigate potential trading risks during this period and ensure more stable and fair order execution, we have decided to postpone the market opening by 1 minute to avoid the most risk-concentrated timeframe and provide a smoother trading environment.

Revised Trading Schedule:

Summer Time:

Opening Time: 06:01 on Monday to Friday (previously 06:00)

Settlement Time: 05:00 – 06:00 on Tuesday to Friday (unchanged)

Market Close: 04:50 on Saturday (unchanged)

Winter Time:

Opening Time: 07:01 on Monday to Friday (previously 07:00)

Settlement Time: 06:00 – 07:00 on Tuesday to Friday (unchanged)

Market Close: 05:50 on Saturday (unchanged)

Important Reminder:

1. Trading hours may be adjusted during public holidays. Please refer to official announcements for the latest updates.
2. Market volatility and liquidity may be affected during the opening session, and prices may experience significant fluctuations. Please carefully manage your positions and maintain adequate margins. Accounts with inadequate margins may be subject to forced liquidation to mitigate risks.
